

proVent[®] 41 BAFFLE

New 41" Spray Foam Baffle for the Insulation Professional

The proVent[®] 41 *BAFFLE* creates a channel through the insulation and blocks the air at the top plate, allowing insulation coverage at the plate and preventing wind-wash.

Adaptable

- To Energy Heels
- Use in Spray Foam, Fiberglass, and Cellulose Applications
- Attaches to Truss, Top Plate or Heel Plate, and Roof Deck

Durable

- Outlasts Cardboard
- Moisture Resistant
- Resists Heat & Pressure from Spray Foam
- Made of High-Impact Polystyrene

Outstanding

- Channels – Air at the Top Plate
- Prevents – Wind-Wash
- Provides – Air Channel Through Insulation
- Multiple Stapling Areas for Secure Insulation
